## Field Day 2006

Posted by VE7TCC - 2006/06/29 02:06

---

This thread discusses the Content article: Field Day 2006

I was up past 11 working on the video last night. One thought came to me, that was I took so long in doing the video after last year's field day that Steve never got the chance to view it. I don't want it to take so long ever again.  
:(

I have most of the video clips sorted and trimmed. I have more titles to add, and transitions and then I add sound effects and music. Finally I do the end credits.

I managed to produce the master copy of the DVD last night. I will be making copies this weekend to distribute. The image below has nothing to do with the GVRG Field Day 2006 DVD. Even though I tell you this your eyes will tell you otherwise...
